ABOUT MISSOURI STATE PARKS

The State Parks of Missouri are located in all areas of the State from the valley of the springs, deep in the Ozark Mountains, the green hills in the north, and to the prairies in the west. They are so distributed that only a few areas are more than fifty miles from a park. The excellent highways make them easily accessible to all, and we especially invite visitors from our sister states to relax and enjoy these showcases of Missouri.

To add to the many improvements the park visitors have enjoyed in the past, many additions are under construction, such as twenty-nine new modern rest room and shower buildings. Three new parks, Graham Cave, Hawn Recreation Area and St. Francois, will be opened to the public with limited facilities, plus the partially restored historic Watkins Mill. Big Lake is being dredged to provide improved water recreation in northwest Missouri. A number of vacation cabins are being remodeled. The new dining lodge and motel type cabins in Montauk State Park have been completed.

During all of this development, every effort was made to preserve the rustic character of the surroundings. These improvements will permit the implementation of park practices that will enhance the natural beauty while furnishing modern conveniences for the park visitors.

May the pages of this booklet serve as a guide to a wonderful vacation in Missouri's State Parks. One you will always remember.

"You are Always Welcome in Missouri's Scenic State Parks"

Camping in Alley Spring beside an abundant bass stream

1 **ALLEY SPRING STATE PARK** is located in Shannon County, 6 miles west of Eminence on State Highway 106. The outstanding feature in this park is the picturesque spring as it emerges as an underground stream from the base of a tree-covered cliff surging into a blue, clear pool. The spring branch races over the old mill dam and meanders through the 418-acre park to join Jack's Fork, world-famous as a smallmouth bass stream. The overnight campgrounds are located on both sides of the spring branch. Excellent swimming is provided in the clear, cool water of Jack's Fork. The old red mill, built in 1870, is a landmark in the community and stands on the bank of the spring pool. The grinding mechanism has been restored, and corn meal, ground by the old burrs, may be purchased by the public. Foot trails, for hiking and nature study, wind through the park, over the hills and along the stream. Wildlife will be found in abundance. A concession building, housing shower, laundry and modern rest room facilities, is available.

2 **ARROW ROCK STATE PARK** is located in Saline County, 15 miles east of Marshall on State Highway 41. In this park you will see the old Arrow Rock Tavern; the old jail, the first built in the new West; the young ladies' Seminary, built in 1843; the home of George Caleb Bingham, the artist; and the old Santa Fe Spring. Picnicking and camping facilities, with tables, ovens and modern

rest rooms with showers, are provided in this 38-acre park. Also, electric hookups are available for tent or trailer camping.

DR. EDMUND A. BABLER MEMORIAL STATE PARK is located 20 miles west of St. Louis on State Highway 109 off St. Louis County CC. This 2,400-acre tract in St. Louis County was a gift to the State from Jacob L. Babler and Henry J. Babler of St. Louis as a memorial to their brother, Dr. Edmund A. Babler, a well-known Missouri physician and surgeon. It was laid out and developed under the supervision of many of America's best park and forestry authorities and is intended as a great playground for the St. Louis area. The operation of this park was assumed on January 1, 1966, by the Missouri State Park Board. The only facilities are for day use, and no overnight camping is allowed.

BENNETT SPRING STATE PARK is not only one of the oldest but is the most popular park in the system. The outstanding feature of the park is the large volume of clear, cold water from the sixth largest spring in Missouri, with an average daily flow of 71,000,000 gallons. As the spring branch wanders through the picturesque valley to the Niangua River, the clear, cool water furnishes excellent rainbow trout fishing. The stream is stocked daily from the well-operated hatchery within the park. Bennett

BOONSLICK STATE PARK is located on Howard County MM from State Highway 87, 10 miles northeast of Boonville. This state park in Howard County is being preserved as a historic site, one of the earliest centers of white men's activities in the interior of Missouri. Facilities are available for picnicking and nature trails.

CIVIL WAR BATTLE OF LEXINGTON STATE PARK. Here is the site of the Battle of Lexington, more popularly known as the "Battle of the Hemp Bales," fought in and around the City of Lexington on September 18, 19 and 20, 1861, between Major General Sterling Price of the Missouri State Guard and Colonel James A. Mulligan, Commander of Federal troops. The engagement ended in a victory for the South. Over a hundred years' weather has not erased the outlines of the trenches. Neither has the plow turned this sod. The park is located in Lexington from U. S. Highway 24 in Lafayette County. The historic Anderson House is in this park.

10

CONFEDERATE MEMORIAL STATE PARK is located in Lafayette County, 1 mile north of Higginsville on State Highways 20 and 13. FORT ZUMWALT STATE PARK, containing 48 acres, is located in St. Charles County, 1 mile west of O'Fallon on Interstate Highway 70. The remains of the oldest hewn timber cabin north of the Missouri River may be seen here. It is also the site of a fort built in 1798 by Jacob Zumwalt. The U. S. Daughters of 1812 erected a monument at the entrance of the park to commemorate the scene of the first battle of the War of 1812 in Missouri. Electric hookups are available for tent or trailer camping.

GRAHAM CAVE STATE PARK is located in Montgomery County, 2 miles west of Danville on Interstate Highway 70. The selection of the name of this park was due to the presence of a large sandstone cave named for an early settler, Robert Graham. The preliminary excavations conducted by the Missouri Archaeological Society and the University of Missouri were completed in 1954. Indian occupation of the cave has been placed at 7850 B.C., plus or minus 500, or approximately 10,000 years. This new park is now open to the public with limited facilities. Modern rest rooms with showers will be in the overnight campground.

15

HAWN RECREATION AREA is located in Ste. Genevieve County, equal distance between Ste. Genevieve and Farmington, on a county road from State Highway 32. The area is administered jointly by the State Park Board and the Conservation Commission. A portion of the park is open for hunting. Although it is still under development, limited facilities for picnicking and camping are available. Spring-fed Pickle Creek runs through the park and will border one side of the campground.

16

JOHNSON SHUT-INS STATE PARK is located in the northeast corner of Reynolds County, 8 miles north of Lesterville on County M. This 2,478-acre park will be left in its wilderness state with only facilities provided for picnicking, overnight camping, nature trails and swimming. Modern rest rooms with showers are now available in the overnight camping area.

TRAIL OF TEARS STATE PARK is located in Cape Girardeau County, 10 miles north of Cape Girardeau on County V, on the limestone bluffs overlooking the mighty Mississippi. This park, consisting of 3,256 acres, was a gift to the State of Missouri by the residents of Cape Girardeau County, the first by any political subdivision. The park contains a portion of the route known as "The Trail of Tears" used by the Cherokee Indians in their forced march from Tennessee to Oklahoma. Among the many who died was Princess Otahki, whose grave is now marked with a memorial monument. A dense and healthy stand of trees cover the area, which contains many fine specimens of American beech, tulip, winged elm, Spanish oak and dogwood. Facilities available are: picnicking; nature trails; an overnight campground complete with modern comfort station, hot and cold showers, automatic clothes washer and dryer; and a travel trailer park with connections for water, electricity and disposal. Also, there is now a dumping station for travel trailers. Modern rest rooms have been provided for the picnic area.

Ancient Indian finds at Van Meter

VAN METER STATE PARK, consisting of 727 acres, is located in Saline County, 12 miles northwest of Marshall on State Highway 122 from State Highway 41. This park offers excellent facilities for picnicking and camping, and a playground for kiddies is conveniently located in the main picnic area. The park is made distinctive by a thick growth of walnut trees and other flora. Indian remains date from early man cultures (10,000 B.C.) to the Historic Missouri Indian. Archaic Indian cultures are in evidence up to Early Woodland cultures. The Middle Woodland culture (Hopewell) built the "Old Fort," the only known earthworks of this kind west of the Mississippi. The Missouri Indians, after whom the State is named, lived in the area from early 1600 into the historic era and was at one time the most concentrated Indian occupation in the United States. The site is being used for the Missouri University's "Summer Field Session in Archaeological Research."
